## INDEPENDENT AUDITOR'S REPORT

To the Members Bombay Oxygen Investments Limited

Report on the Audit of the Financial Statements

### Opinion

We have audited the accompanying Ind AS financial statements of **Bombay Oxygen Investments Limited** ("the Company"), which comprise the Balance Sheet as at 31st March, 2021, the Statement of Profit and Loss (Including Other Comprehensive Income), Statement of Cash Flows and Statement of changes in Equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by Companies Act, 2013, as amended (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2021, and its profit (Financial performance including Other Comprehensive Income), its Cash Flows and changes in equity for the year ended on that date.

### Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

### Key Audit Matters

1. Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
2. We have determined that there are no key audit matters to be communicated in our report.

### Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the Board's Report including management discussion and analysis and a Report on Corporate Governance but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds

# Bombay Oxygen Investments Ltd.

and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management is responsible for assessing the Company's ability to continue as a going concern, disclosing as applicable, matters related to the going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

1. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
2. As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also :
  - Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
  - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
  - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
  - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
  - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
3. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
4. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
5. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## Report on Other Legal and Regulatory Requirements

- 1 As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure A statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
- 2 As required by Section 143(3) of the Act, we report that :
  - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
  - (c) The financial statements dealt with by this Report are in agreement with the books of account.
  - (d) In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
  - (e) On the basis of the written representations received from the Directors as on 31st March, 2021 taken on record by the Board of Directors, none of the Directors are disqualified as on 31st March, 2021 from being appointed as a Director in terms of Section 164 (2) of the Act.
  - (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
  - (g) With respect to other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its Directors during the year is in accordance with the provisions of Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.
  - (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us :
    - i. The Company has disclosed the impact of pending litigations on its financial position in the financial statements (Refer Note 26 of the Ind AS Financial Statements).
    - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
    - iii. There has been no delays in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

## ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

The Annexure referred to in Paragraph 1 under the heading “Report on Other Legal and Regulatory Requirements” in our Independent Auditor’s Report to the members of **Bombay Oxygen Investments Limited** for the year ended 31st March, 2021.

As required by the Companies (Auditors Report) Order, 2016 and according to the information and explanations given to us during the course of the audit and on the basis of such checks of the books and records as were considered appropriate we report that :

- (i) a) The Company has maintained proper records showing full particulars including quantitative details and situation of its fixed assets.
- b) As explained to us, all property, plant and equipment have not been physically verified by the management during the year but the fixed assets have been physically verified by the management in accordance with a phased programme of verification, which in our opinion is reasonable, considering the size of the Company and the nature of its assets. The frequency of verification is reasonable, and no discrepancies have been noticed on such physical verification.
- c) According to the information and explanations given to us and on the basis of our examination of records of the Company, the title deeds of immovable properties are held in the name of the Company.
- (ii) The Company being a Non-Banking Financial Company (NBFC) is primarily engaged in investment in securities, debentures and other products. Accordingly, it does not hold any inventories at the year end.
- (iii) The Company has not granted any loans to the parties covered in the register maintained under Section 189 of the Act. Hence paragraph 3 (iii) (a), (b) and (c) of the said Order are not applicable to the Company.
- (iv) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no loans, investments, guarantees, and securities granted in respect of which provisions of Section 185 and Section 186 are applicable to the Company except 186(1) and hence not commented upon. The Company has not made any investments through more than two layers of investment companies as required in Section 186(1) of the Act.
- (v) According to the information and explanations given to us, the Company has not accepted any deposits from the public. In respect of unclaimed deposits, the Company has complied with the provisions of Sections 73 to 76 or any other relevant provisions of the Companies Act, 2013.
- (vi) The Central Government has not prescribed the maintenance of cost records under Section 148(1) of the Act, for the Company hence paragraph 3(vi) of the Order is not applicable.
- (vii) a) The Company has been regular in depositing undisputed statutory dues, including Provident Fund, Employees’ State Insurance, Income Tax, Goods and Service Tax and other material statutory dues applicable to it to the appropriate authorities. Considering the nature of business that the Company is engaged in, Sales Tax, Custom Duty, Excise Duty and Value Added Tax are not applicable to the Company.

There were no undisputed amounts payable in respect of Provident Fund, Employees’ State Insurance, Income Tax, Goods and Service Tax and other material statutory dues in arrears as at 31st March, 2021 for a period of more than six months from the date they became payable.

- b) According to the information and explanations given to us, dues of income tax, sales tax, value added tax, service tax, duty of customs, duty of excise, Goods and Service Tax which have not been deposited on account of any dispute with the relevant authorities are as under :

Nature of Liability	Amount (₹ In lakhs)	Period to which the matter pertains (F.Y)	Forum at which the dispute is pending
Income Tax	37.85	2009-10	CIT (A) Mumbai
Income Tax	139.31	2010-11	CIT (A) Mumbai
Income Tax	14.20	2011-12	CIT (A) Mumbai
Income Tax	0.33	2016-17	CIT (A) Mumbai
Income Tax	9.97	2018-19	CIT (A) Mumbai

# Bombay Oxygen Investments Ltd.

- (viii) As the Company does not have any loans or borrowings from any financial institution or bank or Government, nor has it issued any debentures, as at the balance sheet date the provisions of Clause 3(viii) of the Order are not applicable to the Company.
- (ix) The Company has not raised any money by way of initial public offer, further public offer (including debt instruments) and term loans during the year. Accordingly, the provisions of Clause 3(ix) of the Order are not applicable to the Company.
- (x) According to the information and explanations given to us, no material fraud by the Company or on the Company by its officers or employees has been noticed or reported during the course of our audit.
- (xi) According to the information and explanation given to us and based on our examination of the records of the Company, the Company has paid / provided for managerial remuneration in accordance with requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.
- (xii) In our opinion and according to the information and explanations given to us, the Company is not a Nidhi Company. Accordingly, paragraph 3(xii) of the Order is not applicable.
- (xiii) According to the information and explanations given to us and based on our examinations of the records of the Company, transactions with the related parties are in compliance with Sections 177 and 188 of the Act, where applicable. The details of such related party transactions have been disclosed in the Ind AS financial statements as required by applicable accounting standards.
- (xiv) According to the information and explanations given to us and based on our examination of the records, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year.
- (xv) According to the information and explanations given to us and based on our examination of the records, the Company has not entered into non-cash transactions with the Directors or persons connected with them. Accordingly, paragraph 3(xv) of the Order is not applicable.
- (xvi) The Company has obtained the requisite registration as a Non-Banking Financial Institution under section 45 – IA of the Reserve Bank of India Act, 1934.

### **Auditor’s Responsibility**

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal controls based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial control system over financial reporting.

### **Meaning of Internal Financial Controls Over Financial Reporting**

A Company’s internal financial controls over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial controls over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of Management and Directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company’s assets that could have a material effect on the Ind AS financial statements.

### **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

### Description of the nature and purpose of Other Equity :

#### General Reserve

General Reserve is created through annual transfer of profits at a specified percentage in accordance with applicable regulations under the erstwhile Companies Act, 1956. The purpose of these transfers was to ensure that if a dividend distribution in a given year is more than 10% of the paid up capital of the Company for that year, then the total dividend distribution is less than the total distributable profits for that year. Consequent to introduction of the Companies Act, 2013, the requirement to mandatorily transfer specified percentage of net profits to General Reserve has been withdrawn. However, the amount previously transferred to the General Reserve can be utilised only in accordance with the specific requirements of the Companies Act, 2013.

#### Statutory Reserve

Statutory Reserve represents the reserve created pursuant to the Reserve Bank of India Act, 1934 (the "RBI Act") and related regulations applicable to those Companies. Under the RBI Act, a Non-Banking Financial Company is required to transfer an amount not less than 20% of its net profit to a reserve fund before declaring any dividend. Appropriation from this reserve fund is permitted only for the purposes specified by the RBI.

#### Retained Earnings

Retained Earnings or accumulated surplus represents total of all profits retained since Company's inception. Retained Earnings are credited with current year profits, reduced by losses, if any, dividend payouts, transfers to General Reserve or any such other appropriations to specific reserves.

## Notes to the Ind AS financial statements as at 31st March, 2021

### Note 1. Corporate Information

Bombay Oxygen Investments Limited ("the Company") is a listed public Company domiciled in India and is incorporated on 3rd October, 1960 under the provisions of the Companies Act applicable in India. The Company is listed on BSE Limited. The Company is a Non-Banking Financial Company (NBFC) registered with the Reserve Bank of India.

The financial statements of the Company for the year ended 31st March, 2021 were authorised for issue in accordance with resolution of the Board of Directors passed on 22nd June, 2021.

### Note 2. Significant Accounting Policies

#### i Basis of Preparation

The financial statements of the Company have been prepared to comply in all material respects with the Indian Accounting Standards ("Ind AS") notified under the Companies (Accounting Standards) Rules, 2015 (as amended).

The financial statements have been prepared under the historical cost convention with the exception of certain Financial Assets and Liabilities which have been measured at fair value, on an accrual basis of accounting.

All the assets and liabilities have been classified as current and non-current as per normal operating cycle of the Company and other criteria set out in Schedule III to the Act. Based on the nature of services, the Company ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

The Company's financial statements are reported in Indian Rupees, which is also the Company's functional currency, and all values are rounded to the nearest lakhs (INR '00,000), except when otherwise indicated.

The Company is covered in the definition of Non-Banking Financial Company as defined in Companies (Indian Accounting Standards) (Amendment) Rules, 2016. As per the format prescribed under Division III of Schedule III to the Companies Act, 2013 on 11th October, 2018, the Company presents the Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equity in the order of liquidity.

#### ii Accounting Estimates

The preparation of the financial statements, in conformity with the Ind AS, requires the management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities and disclosure of contingent liabilities as at the date of financial statements and the results of operation during the reported year. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates which are recognised in the year in which they are determined.

#### Estimates and assumptions

The Company has based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the financial statements in the year in which changes are made and, if material, their effects are disclosed in the notes to the financial statements. The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below :

#### Deferred tax assets

In assessing the realisability of deferred income tax assets, management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the years in which the temporary differences become deductible. Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the year in which the deferred income tax assets are deductible, management believes that the Company will realize the benefits of those deductible differences.

# Bombay Oxygen Investments Ltd.

## Notes to the Ind AS financial statements as at 31st March, 2021

The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward year are reduced.

### Defined benefit plans

The cost and present value of the gratuity obligation and compensated absences are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, attrition rate and mortality rates. Due to the complexities involved in the valuation and its long term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

### iii Property, Plant and Equipment

Property, Plant and Equipment are stated at cost of acquisition including attributable interest and finance costs, if any, till the date of acquisition/ installation of the assets less accumulated depreciation and accumulated impairment losses, if any. Subsequent expenditure relating to Property, Plant and Equipment is capitalised only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are charged to the Statement of Profit and Loss as incurred. The cost and related accumulated depreciation are eliminated from the financial statements, either on disposal or when retired from active use and the resultant gain or loss are recognised in the Statement of Profit and Loss.

### iv Depreciation/ Amortisation

#### Depreciation/ amortisation is provided :

- a) Depreciation on tangible assets is provided on straight line basis considering the useful lives prescribed in Schedule II to the Act on a pro-rata basis. Depreciation on additions and deletions made during the year is provided on pro-rata basis from and upto the date of additions and deletions of the assets respectively.
- b) Leasehold land at Nagpur acquired from MIDC are not amortised being perpetual in nature.

### v Financial Instruments

#### Classification

A Financial instrument is any contract that gives rise to a financial asset of one entity and financial liability or equity instruments of another entity. Financial Assets, other than equity, are classified into, Financial Assets at Fair Value Through Other Comprehensive Income (FVOCI) or Fair Value Through Profit and Loss Account (FVTPL) or at amortised cost. Financial Assets that are equity instruments are classified as FVTPL or FVOCI. Financial Liabilities are classified as amortised cost category and FVTPL.

Business Model assessment and Solely Payments of Principal and Interest (SPPI) test :

Classification and measurement of Financial Assets depends on the business model and results of SPPI test. The Company determines the business model at a level that reflects how groups of Financial Assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including;

- How the performance of the business model and the Financial Assets held within that business model are evaluated and reported to the entity's Key Management Personnel.
- The risks that affect the performance of the business model (and the Financial Assets held within that business model) and, in particular, the way those risks are managed.
- How managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected).
- The expected frequency, value and timing of sales are also important aspects of the Company's assessment.

If cash flows after initial recognition are realised in a way that is different from the Company's original expectations, the Company does not change the classification of the remaining Financial Assets held in that business model, but incorporates such information when assessing newly originated or newly purchased Financial Assets going forward.

# Bombay Oxygen Investments Ltd.

## Notes to the Ind AS financial statements as at 31st March, 2021

### a) Financial Assets

#### Initial Recognition

The classification of financial instruments at initial recognition depends on their contractual terms and the business model for managing the instruments.

Financial Assets and Financial Liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of Financial Assets and Financial Liabilities (other than Financial Assets and Financial Liabilities at FVTPL) are added to or deducted from the fair value of the Financial Assets or Financial Liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of Financial Assets or Financial Liabilities at FVTPL are recognised immediately in the Statement of Profit or Loss.

Financial Assets and Financial Liabilities, with the exception of Loans, Debt Securities and Deposits are recognised on the trade date i.e. when a Company becomes a party to the contractual provisions of the instruments. Loans, Debt Securities and Deposits are recognised when the funds are transferred to the customers account. Trade Receivables are measured at the transaction price.

#### Subsequent Measurement

For purposes of subsequent measurement, Financial Assets are classified in following categories :

#### Financial Assets at Amortised Cost

Financial Assets having contractual terms that give rise on specified dates to cash flows that are Solely Payments of Principal and Interest on the principal outstanding and that are held within a business model whose objective is to hold such assets in order to collect such contractual cash flows are classified in this category. Subsequently these are measured at amortised cost using effective interest method less any impairment losses.

#### Debt Instruments at FVOCI

Debt instruments that are measured at FVOCI have contractual terms that give rise on specified dates to cash flows that are Solely Payments of Principal and Interest on principal outstanding and that are held within a business model whose objective is achieved by both collecting contractual cash flows and selling Financial Assets. These instruments largely comprise long term investments made by the Company. FVOCI debt instruments are subsequently measured at fair value with gains and losses arising due to changes in fair value recognised in OCI. Interest income and gains and losses are recognised in profit or loss in the same manner as for Financial Assets measured at amortised cost. On derecognition, cumulative gains or losses previously recognised in OCI are reclassified from OCI to profit or loss.

#### Equity Instruments at FVOCI

These include Financial Assets that are equity instruments as defined in Ind AS 109 "Financial Instruments" and are not held for trading and where the Company's management has elected to irrevocably designated the same as Equity instruments at FVOCI upon initial recognition. Subsequently, these are measured at fair value and changes therein are recognised directly in Other Comprehensive Income, net of applicable income taxes. Gains and losses on these equity instruments are never recycled to profit or loss. Dividends from these equity investments are recognised in the statement of profit and loss when the right to receive the payment has been established.

#### Fair Value Through Profit and Loss Account

Financial Assets are measured at FVTPL unless it is measured at amortised cost or at FVOCI on initial recognition. The transaction costs directly attributable to the acquisition of Financial Assets at Fair Value Through Profit or Loss are immediately recognised in profit or loss.

#### Impairment of Financial Assets

In accordance with Ind AS 109, the Company applies the Expected Credit Loss ("ECL") model for measurement and recognition of impairment loss on Financial Assets and credit risk exposures.

# Bombay Oxygen Investments Ltd.

## Notes to the Ind AS financial statements as at 31st March, 2021

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. Simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition.

For recognition of impairment loss on other Financial Assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent year, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

ECL is the difference between all contractual cash flows that are due to the group in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. Lifetime ECL are the Expected Credit Losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL impairment loss allowance (or reversal) recognised during the year is recognised as income/ expense in the Statement of Profit and Loss.

### **De-recognition of Financial Assets**

The Company de-recognises a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all risks and rewards of ownership of the asset to another entity.

If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognizes its retained interest in the assets and an associated liability for amounts it may have to pay.

If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

## **b) Equity Instruments and Financial Liabilities**

### **Classification as debt or equity**

Financial Liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

### **Equity Instruments**

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

### **Financial Liabilities**

#### **1) Initial Recognition**

Financial Liabilities are classified, at initial recognition, as Financial Liabilities at FVTPL, Loans and Borrowings and Payables as appropriate. All Financial Liabilities are recognised initially at fair value and, in the case of Loans and Borrowings and Payables, net of directly attributable transaction costs.

#### **2) Subsequent Measurement**

The measurement of Financial Liabilities depends on their classification, as described below :

# Bombay Oxygen Investments Ltd.

## Notes to the Ind AS financial statements as at 31st March, 2021

### Financial Liabilities at FVTPL

Financial Liabilities at FVTPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as at FVTPL. Financial Liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognised in the Statement of Profit and Loss.

### Financial Liabilities at amortised cost

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate ("EIR") method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the term of the borrowings in the Statement of Profit and Loss.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss.

### 3) De-recognition of Financial Liabilities

Financial Liabilities are de-recognised when the obligation specified in the contract is discharged, cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as de-recognition of the original liability and recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

### c) Offsetting Financial Instruments

Financial Assets and Financial Liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis to realise the assets and settle the liabilities simultaneously.

## vi Employee Benefits

### a Defined Contribution Plan

Contributions to defined contribution schemes such as provident fund, employees' state insurance, labour welfare are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees. The above benefits are classified as Defined Contribution Schemes as the Company has no further obligations beyond the monthly contributions.

### b Defined Benefit Plan

The Company also provides for gratuity which is a Defined Benefit Plan, the liabilities of which is determined based on valuations, as at the Balance Sheet date, made by an independent actuary using the projected unit credit method. Re-measurement, comprising of actuarial gains and losses, in respect of gratuity are recognised in the OCI, in the year in which they occur. Re-measurement recognised in OCI are not reclassified to the Statement of Profit and Loss in subsequent years. Past service cost is recognised in the Statement of Profit and Loss in the year of plan amendment or curtailment.

### c Leave entitlement and compensated absences

Accumulated leave which is expected to be utilised within next twelve months, is treated as short term employee benefit. Leave entitlement, other than short term compensated absences, are provided based on an actuarial valuation, similar to that of gratuity benefit. Re-measurement, comprising of actuarial gains and losses, in respect of leave entitlement are recognised in the Statement of Profit and Loss in the year in which they occur.

# Bombay Oxygen Investments Ltd.

## Notes to the Ind AS financial statements as at 31st March, 2021

### **d Short term Benefits**

Short-term employee benefits such as salaries, wages, performance incentives etc. are recognised as expenses at the undiscounted amounts in the Statement of Profit and Loss of the year in which the related service is rendered. Expenses on non-accumulating compensated absences is recognised in the year in which the absences occur.

### **e Termination benefits**

Termination benefits are recognised as an expense as and when incurred.

### **vii Inventories**

Finished goods produced or purchased are valued at lower of cost and net realisable value. Stores and Spare parts are valued at landed cost determined on First-In-First-Out (FIFO) basis. Plant components are valued at cost.

### **viii Cash and Cash Equivalents**

Cash and cash equivalents in the Balance Sheet comprises of cash at banks and on hand and short term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

### **ix Borrowing Costs**

Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. Also, the EIR amortisation is included in finance costs. Borrowing costs relating to acquisition, construction or production of a qualifying asset which takes substantial year of time to get ready for its intended use are added to the cost of such asset to the extent they relate to the year till such assets are ready to be put to use. All other borrowing costs are expensed in the Statement of Profit and Loss in the year in which they occur.

### **x Foreign Exchange Translation and Accounting of Foreign Exchange Transaction**

#### **a Initial Recognition**

Foreign currency transactions are initially recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

#### **b Conversion**

Monetary assets and liabilities denominated in foreign currencies are reported using the closing rate at the reporting date. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

#### **c Treatment of Exchange Difference**

Exchange differences arising on settlement/ restatement of short term foreign currency monetary assets and liabilities of the Company are recognised as income or expense in the Statement of Profit and Loss except those arising from investment in Non Integral operations. Premium or discount in respect of forward contracts is accounted over the year of the contract.

### **xi Revenue Recognition**

The Company recognises revenue from contracts with customers based on a five step model asset out in Ind AS 115, Revenue from Contracts with Customers, to determine when to recognize revenue and at what amount. Revenue is measured based on the consideration specified in the contract with a customer. Revenue from contracts with customers is recognised when services are provided and it is highly probable that a significant reversal of revenue is not expected to occur. Revenue is measured at fair value of the consideration received or receivable. Revenue is recognised when (or as) the Company satisfies a performance obligation by transferring a promised service (i.e. an asset) to a customer. An asset is transferred when (or as) the customer obtains control of that asset. When (or as) a performance obligation is satisfied, the Company recognizes as revenue the amount of the transaction price (excluding estimates of variable consideration) that is allocated to that performance obligation.

# Bombay Oxygen Investments Ltd.

## Notes to the Ind AS financial statements as at 31st March, 2021

The Company applies the five step approach for recognition of revenue :

- Identification of contract(s) with customers;
- Identification of the separate performance obligations in the contract;
- Determination of transaction price;
- Allocation of transaction price to the separate performance obligations; and
- Recognition of revenue when (or as) each performance obligation is satisfied.

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Sales comprise, invoiced value of goods sold and services rendered, and are net of value added tax, central sales tax, goods & service tax, trade discount & returns and rebates.

Interest income is recognized on accrual basis.

Dividend income is recognized when the Company's right to receive dividend is established.

### xii Income Tax

Income tax comprises of current and deferred income tax. Income tax is recognised as an expense or income in the Statement of Profit and Loss, except to the extent it relates to items directly recognised in equity or in OCI.

#### a Current Income Tax

Current income tax is recognised based on the estimated tax liability computed after taking credit for allowances and exemptions in accordance with the Income Tax Act, 1961. Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

#### b Deferred Income Tax

Deferred Tax is determined by applying the Balance Sheet approach. Deferred Tax Assets and Liabilities are recognised for all deductible temporary differences between the financial statements' carrying amount of existing assets and liabilities and their respective tax base. Deferred Tax Assets and Liabilities are measured using the enacted tax rates or tax rates that are substantively enacted at the Balance Sheet date. The effect on Deferred Tax Assets and Liabilities of a change in tax rates is recognised in the year that includes the enactment date. Deferred Tax Assets are only recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. Such assets are reviewed at each Balance Sheet date to reassess realisation.

Deferred Tax Assets and Liabilities are offset when there is a legally enforceable right to offset. Current Tax Assets and Tax Liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

#### c Minimum Alternative Tax ("MAT")

Minimum Alternative Tax ("MAT") credit is recognised as an asset only when and to the extent it is probable that the Company will pay normal income tax during the specified year.

### xiii Leases

The firm has adopted Ind AS 116-Leases effective 1st April, 2019, using the modified retrospective method. The firm has applied the standard to its leases with the cumulative impact recognised on the date of initial application (1st April, 2019).

The firm's lease asset classes primarily consist of leases for Land. The firm assesses whether a contract is or contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a year of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the firm assesses whether :

# Bombay Oxygen Investments Ltd.

## Notes to the Ind AS financial statements as at 31st March, 2021

- (i) the contract involves the use of an identified asset ;
- (ii) the firm has substantially all of the economic benefits from use of the asset through the year of the lease and
- (iii) the firm has the right to direct the use of the asset.

At the date of commencement of the lease, the firm recognises a Right-Of-Use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short term leases) and leases of low value assets. For these short term and leases of low value assets, the firm recognises the lease payments as an operating expense on a straight line basis over the term of the lease.

The Right-Of-Use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made.

A lease liability is remeasured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. The remeasurement normally also adjusts the leased assets. Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows. The Company has no lease assets during the year.

#### xiv Impairment of Non-Financial Assets

As at each Balance Sheet date, the Company assesses whether there is an indication that a non-financial asset may be impaired and also whether there is an indication of reversal of impairment loss recognised in the previous years. If any indication exists, or when annual impairment testing for an asset is required, the Company determines the recoverable amount and impairment loss is recognised when the carrying amount of an asset exceeds its recoverable amount.

##### Recoverable amount is determined :

- In case of an individual asset, at the higher of the assets' fair value less cost to sell and value in use; and
- In case of cash generating unit (a group of assets that generates identified, independent cash flows), at the higher of cash generating unit's fair value less cost to sell and value in use.

In assessing value in use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specified to the asset. In determining fair value less cost to sell, recent market transaction are taken into account. If no such transaction can be identified, an appropriate valuation model is used.

Impairment losses of continuing operations, including impairment on inventories, are recognised in the Statement of Profit and Loss, except for properties previously revalued with the revaluation taken to OCI. For such properties, the impairment is recognised in OCI up to the amount of any previous revaluation. When the Company considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, then the previously recognised impairment loss is reversed through the Statement of Profit and Loss.

#### xv Trade Receivables

A receivable is classified as a 'Trade Receivable' if it is in respect of the amount due on account of goods sold or services rendered in the normal course of business. Trade Receivables are recognised initially at fair value and subsequently measured at amortised cost using the Effective Interest Rate method, less provision for impairment.

# Bombay Oxygen Investments Ltd.

## Notes to the Ind AS financial statements as at 31st March, 2021

### xvi Trade Payables

A payable is classified as a 'Trade Payable' if it is in respect of the amount due on account of goods purchased or services received in the normal course of business. These amounts represent liabilities for goods and services provided to the Company prior to the end of the financial year which are unpaid. These amounts are unsecured and are usually settled as per the payment terms stated in the contract. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting year. They are recognised initially at their fair value and subsequently measured at amortised cost using the Effective Interest Rate method.

### xvii Non-current assets held for sale and discontinued operations

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, Financial Assets, etc., which are specifically exempt from this requirement.

Non-current assets classified as held for sale are presented separately from the other assets in the balance sheet.

A discontinued operation is a component of the Company that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single coordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in the statement of profit and loss.

### xviii Earnings Per Share

Basic earnings per share is computed by dividing the net profit or loss for the year attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year and for all years presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources.

Diluted earnings per share is computed by dividing the net profit or loss for the year attributable to the equity shareholders of the Company and weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares).

### xix Provisions, Contingent Liabilities and Contingent Assets

A provision is recognised when the Company has a present obligation (legal or constructive) as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, in respect of which a reliable estimate can be made of the amount of obligation. Provisions (excluding gratuity and compensated absences) are determined based on management's estimate required to settle the obligation at the Balance Sheet date. In case the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. These are reviewed at each Balance Sheet date and adjusted to reflect the current management estimates.

Contingent liabilities are disclosed in respect of possible obligations that arise from past events, whose existence would be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. A contingent liability also arises, in rare cases, where a liability cannot be recognised because it cannot be measured reliably. Contingent assets are disclosed in the financial statements.

## Notes to the Ind AS financial statements (Continued) as at 31st March, 2021

### Note 31 (A). FINANCIAL RISK MANAGEMENT FRAMEWORK

In the course of its business, the Company's activities expose it to a variety of financial risks : market risk, credit risk and liquidity risk. The Company's primary focus is to achieve better predictability of financial markets and seek to minimize potential adverse effects on its financial performance.

The financial risks are managed in accordance with the Company's risk management policy which has been approved by its Board of Directors.

#### a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Company has no foreign currency exposure and does not have hedge position in currency market, thus Company does not foresee any foreign currency risk. Company has no borrowings thus Company does not foresee any interest rate risk.

#### Exposure to Price Risks

The Company is exposed to market price risk, which arises from FVTPL and FVOCI investments. The management monitors the proportion of these investments in its investment portfolio based on market indices. Material investments within the portfolio are managed on an individual basis and all buy and sell decisions are approved by the appropriate authority.

The Company is exposed to equity price risk arising from investments held by the Company and classified in the Balance Sheet as Fair Value through OCI.

To manage its price risk arising from investment in equity securities, the Company diversifies its portfolio.

All of the Company's equity investments are listed on the Bombay Stock Exchange (BSE) or the National Stock Exchange (NSE) in India.

#### Sensitivity analysis - Equity price risk

The table below summaries the impact of increases/decreases of the index on the Company's equity and profit for the year. The analysis is based on the assumption that the equity/index had increased by 2% or decreased by 2% with all other variables held constant, and that all the Company's equity instruments moved in line with the index.

(₹ in lakhs)

	Impact on profit after tax		Impact on other components of equity	
	31st March, 2021	31st March, 2020	31st March, 2021	31st March, 2020
NSE / BSE Index - increase by 2%	303.37	141.55	269.44	145.23
NSE / BSE Index - decrease by 2%	(303.37)	(141.55)	(269.44)	(145.23)

Profit for the year would increase/decrease as a result of gains/losses on certain equity securities classified as Fair Value Through Profit or Loss, if any. Other components of equity would increase/decrease as a result of gains/losses on equity securities classified as Fair Value Through Other Comprehensive Income.

#### b) Credit Risk

Credit risk is the risk that the Company will incur a loss because its customers or counterparties fail to discharge their contractual obligation. The Company manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties, and by monitoring exposures in relations to such limits. The maximum exposure to credit risk for each class of financial instruments is the carrying amount of that class of financial instruments presented in the financial statements. The Company's major classes of financial assets are cash and cash equivalents, investment in mutual fund units, trade receivables and security deposits. Deposits with banks are considered to have negligible risk or nil risk, as they are maintained with high rated banks/financial institutions as approved by the Board of Directors.

#### c) Liquidity Risk

Liquidity risk is the risk that the entity will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The entity's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both

normal and stressed conditions, without incurring unacceptable losses or risking damage to the entity's reputation. Prudent liquidity risk management requires sufficient cash and marketable securities and availability of funds through adequate committed credit facilities to meet obligations when due and to close out market positions. The Company has a view of maintaining liquidity with minimal risks while making investments. The Company invests its surplus funds in short term liquid assets in bank deposits and liquid mutual funds. The Company monitors its cash and bank balances periodically in view of its short term obligations associated with its financial liabilities.

#### Maturity profile of non-derivative financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment years. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows.

### Note 31. B (2). Fair value hierarchy

Fair value hierarchy explains the judgement and estimates made in determining the fair values of the financial instruments that are :

- I. recognised and measured at fair value.
- II. measured at amortised cost and for which fair values are disclosed in the financial statements.

To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard.

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

- I. (a) **Assets and Liabilities that are disclosed at Fair Value Through Other Comprehensive Income and are classified as Level 1.**

		Fair Value	Fair Value
<b>Financial Assets :</b>			
Investments			
Investments in equity shares	6	13,471.81	7,261.51

- I. (b) **Assets and Liabilities that are disclosed at Fair value through Profit & Loss and are classified as Level 2.**

The fair value of the financial instruments that are not traded in an active market is determined using valuation techniques. The Company uses its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting year.
